Footnotes

* Remedial Action Plans in place prior to WQARF program amendments of 1997. Plans included community involvement.

** To date, fourteen CABs, two CAGs and one SAG have been established representing 21 WQARF sites, two federal Superfund sites, and one Department of Defense site: one CAB for each of the following sites: Broadway Pantano; Central and Camelback; East Washington Fluff; Estes Landfill; Klondyke Tailings; Miracle Mile; Park-Euclid; South Mesa; Tyson Wash; Vulture Mill; West Van Buren; one combined CAB for Payson PCE and Tonto and Cherry; one combined CAB for Shannon-Rillito and El Camino del Cerro; one combined CAB for the five WCP sites; one CAG for Western Avenue Plume (with Phoenix-Goodyear Airport federal Superfund site); one CAG for Motorola 52nd Street federal Superfund site; and one SAG for Camp Navajo DOD site.

Under the existing Registry of 33 sites, up to 19 CABs (representing 30 of the 33 sites) have been determined or may be determined to be required. Three of the 33 sites have already been determined not to require CABs (Pinal Creek, Los Reales Landfill, and Silverbell Jail Annex Landfill). The 19 possible CABs would include the fifteen existing CABs/CAGs listed above plus the following: 7th Street and Arizona Avenue; 16th Street and Camelback; 20th Street and Factor; and ECP - six sites to be covered by one CAB.
